SRB - SPLIT REPAIR FITTINGS

FIBERGLASS CONSTRUCTION = PERMANENT REPAIR

100% fiberglass construction provides superior strength and ensures the fitting will withstand long-term exposure to all fuels, including ethanol. These can replace rubber or plastic boots.

REPAIRS FIBERGLASS OR POLY

EP2A is used to bond fittings to fiberglass and steel. It has great gap filling properties and excellent sag resistance, making it a simple and dependable bonding solution.

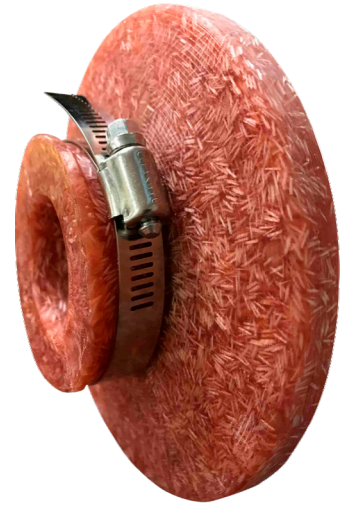

Clear Magic, PCI's proprietary three-part adhesive, can be used with any of our fiberglass fittings to permanently bond fiberglass to polyethylene.

COST EFFECTIVE

PCI's penetration fittings are the most affordable fiberglass fittings on the market, with a similar cost to rubber or plastic fittings.

FLEXIBLE

Works with angled pipe entries up to 10°.

AFTER

TWISTLOK RETROFIT LID KITS

FIX LEAKING SUMP LIDS WITHOUT BREAKING CONCRETE

Installs through a 36" opening to permanently repair or raise sump lids without breaking concrete.*

WATER-TIGHT REPAIR

PCI's 12-point locking system creates a water-tight seal every time with one simple twist.

VERSATILE

Available for polyethylene or fiberglass sumps.

RETROFIT KIT SURVEY

A survey with 5 simple measurements is required with every order to ensure the lid is built to the correct specifications without needing to break concrete.

Fuels. EV Charging. Foodservice Equipment.
