

TECHNICIAN TRAINING

Veeder-Root TLS-450Plus

Shields, Harper & Co. in partnership with Veeder-Root offers training and factory certification classes on the TLS series automatic tank gauges. This factory-authorized training course consists of several separate levels:

Class Prerequisite: Completion of Safety and VeederTEC ATG Installer course and a current technicians I.D. number issued by  **VEEDER-ROOT.**

Class will consist of installation, system start-up, line leak detection, service and troubleshooting for both the TLS-350 and TLS-450 consoles.

This is a four day long hands-on programming and operational training course, taught by a certified Veeder-Root instructor.
